OBJECTIVE

Motivated and detail-oriented fresher with hands-on experience across Python, full-stack web development, and database management. Strong foundation in OOP concepts, REST API design, and responsive front-end development, with a growing interest in AI-driven applications. A quick learner who enjoys building projects end to end, seeking a junior full-stack or Python developer role to contribute to and grow within a good organisation.

EDUCATION

- Ethiraj College for Women — Master of Computer Applications (MCA) | 2023 | CGPA: 7.66
- M.O.P. Vaishnav College for Women — Bachelor of Computer Applications (BCA) | 2021 | CGPA: 7.0
- Daniel Matriculation School — Higher Secondary | 2018 | 87%

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, Bootstrap, JavaScript (DOM & Validation), React JS, React Router, Axios
- Backend: Python, FastAPI, REST API Development (http.server & FastAPI), OOP Concepts, JWT Authentication, File & Exception Handling, JSON Handling
- Database: MySQL, SQLAlchemy, PyMySQL connectivity, CRUD Operations, Schema Design
- AI / NLP: NLTK, TF-IDF & Cosine Similarity Matching, ChatGPT, GitHub Copilot
- Other: AWS S3 (versioning & object lock), Git/GitHub

PROJECTS

AI Resume Screening & Job Match System | *FastAPI, React/Vite, MySQL, SQLAlchemy, NLTK, JWT*

- Built a full-stack platform that matches candidate resumes to job postings using an NLP-based scoring engine (NLTK, TF-IDF, cosine similarity)
- Implemented JWT- and bcrypt-secured, role-based access for separate candidate and recruiter workflows across 25+ modules
- Designed and seeded the MySQL schema through custom API endpoints, validating results against a real dataset of 38 candidates and 17 jobs
- Produced a 15-section project report and ran the full system through live API testing (PowerShell Invoke-RestMethod)

E-Commerce Web Application (ShopEasy) | *React JS, Python, REST API, MySQL, PyMySQL*

- Built a full-stack e-commerce application with authentication, product listing, cart management, and order placement
- Hand-built the REST API in raw Python using http.server (no framework), integrated with MySQL via PyMySQL
- Created a responsive React frontend with React Router, Axios, search, and category filtering
- Designed a relational MySQL schema with foreign-key relationships across users, products, cart, and orders

INTERNSHIP

Software Trainee — SBL IT Solutions | 2023

- Developed an e-commerce website, Online Converse Shopping, with an integrated NLP chatbot
- Used HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL

OTHER PROJECTS

Employee Report Generation System | *Python, PyMySQL, MySQL*

- Built a console-based employee management system with CRUD operations, employee search, salary calculation, and database connectivity

Interior Design Studio Website | *HTML, CSS*

- Developed a responsive site with Flexbox, CSS Grid, media queries, and transform-based transitions

CERTIFICATIONS

- Python Full Stack Course — Accord Info Matrix (2026)
- Yuva AI for All — NASSCOM Future Skills
- SQL and Relational Databases 101 — IBM
- Python Intermediate — Simplilearn
